

Xtender Banner Security Request

Provided by ITCS Xtender Team

Xtender access must be requested through the Banner Security Request Application in PiratePort.

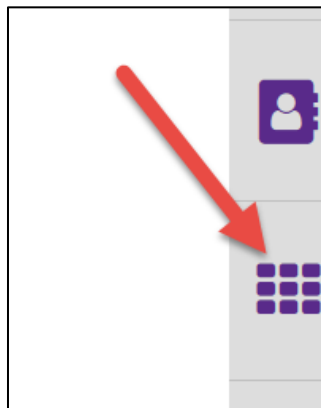

Users should know two things before submitting their request: (1) the specific Xtender application they need access to and (2) the level of access required.

The three levels of privilege for each application are as follows:

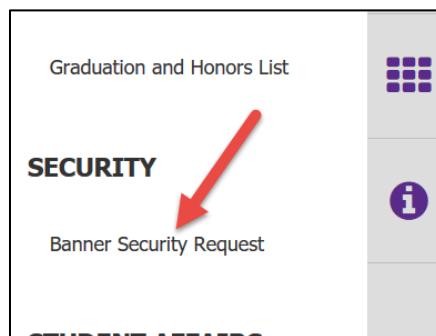

Privilege Level	Capability
View	View and Print pages of a document.
Processor	View and Print pages, scan/import (single pages or in batches), create and modify document indexes, delete single pages (cannot delete a document entirely).
Processor – No Delete	View and Print pages, scan/import (single pages or in batches), create and modify document indexes.
Application Administrator	All processor privileges + can delete entire documents.

Submitting a Banner Security Request for Xtender

1. After logging into PiratePort (<https://pirateport.ecu.edu>) click the application menu option on the right-hand side of the page:

2. Scroll until you find the Security section and click on Banner Security Request:

3. On the following screen click the word Xtender (not the checkbox beside it):

Welcome to the Banner Security Request application. To request access, check the box beside the banner module or sensitive data field. Click [HERE](#) to view the details of the Banner Security Request.

options

Request Security

Requester Information			
ECU ID	Name	Pirate ID	Home Org

Information for current jobs and any jobs that will become effective within the next 30 days is displayed. Jobs that become effective in the future are displayed in **RED**.

Job Information						
Posn-Suff-Type	Job Eff Date	Job Beg-End	Status	Change Reason	Emp Group	Title

If the displayed Supervisor Pirate ID is NOT correct, click the 'UPDATE' action link. If a message is displayed, please refer to the message to determine any further action.

Supervisor Information		
Pirate ID	Action	Message
	UPDATE	none

Click the module link to view/complete any module requirements. Once the requirements have been completed, ensure that the module checkbox is selected to enable the request form. Click the submit button to send the request to your supervisor for approval. If a module checkbox contains an 'x' and is disabled, you have a currently active request for that module. Concurrent requests for access to the same module are not allowed.

Banner Security Request	
<p>Request Access for:</p> <div style="display: flex; justify-content: space-between;"> <div> <input type="checkbox"/> Finance <input type="checkbox"/> Student </div> <div> <input type="checkbox"/> Financial Aid <input type="checkbox"/> Xtender </div> <div> <input type="checkbox"/> Human Resources <input type="checkbox"/> eCommerce </div> </div>	<p>Sensitive Data Access</p> <p>Comments:</p>

4. A window will appear after clicking Xtender. This is where you'll select the Xtender application you are requesting access to as well as the level of privilege. Xtender applications are listed in various drop-down boxes separated by functional area:

This form must be completed before Xtender access is requested. Select the appropriate application and privilege then press 'submit'.

Xtender Security Access Form

Application

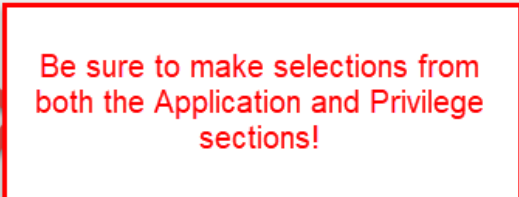

BSOM:	<input type="text" value="NONE"/>
FINANCE:	<input type="text" value="NONE"/>
FINANCIAL AID:	<input type="text" value="NONE"/>
HUMAN RESOURCES:	<input type="text" value="NONE"/>
NEUROLOGY:	<input type="text" value="NONE"/>
STUDENT:	<input type="text" value="NONE"/>
	<input type="text" value="NONE"/>
OTHER:	<input type="text" value="ECU-HS-PERSONNEL"/>

NOTE: Application selection is required and only one application can be selected per request. For access to BSOM applications, the requester must have completed HIPAA training. For access to Student applications, the requester must have taken the FERPA quiz.

Privilege

SELECT PRIVILEGE:	<input type="text" value="NONE"/> <input type="text" value="View"/> <input type="text" value="Processor"/>
-------------------	--

NOTE: Privilege selection is required and only one privilege can be selected per request.

- Click Submit. That window will close and you'll be brought back to the main Banner Security Request screen. Click submit again and your request will be on it's way.

Click the module link to view/complete any module requirements. **Once the requirements have been completed, ensure that the module checkbox is selected to enable the request form.** Click the submit button to send the request to your supervisor for approval. If a module checkbox contains an 'x' and is disabled, you have a currently active request for that module. Concurrent requests for access to the same module are not allowed.

Comments:
 Use this area to enter any relevant job information or to request additional access that is not offered in the module requirements or on this form. A maximum of 200 characters are allowed.

* 200 character max

IMPORTANT: Check this box if this access is associated with a job change for a new position.

Security Request History for Eric M Hunnicutt

request ID	module	request date	status	comments
95570	Xtender	06/20/15	Security Granted	

A few things to note:

- Access to Xtender can only be obtained via this process – not via a Help Desk ticket.
- Your Banner Security Request must be approved by multiple persons: Your supervisor, the primary Xtender application approver, IT Security, and the Xtender team. Access is not granted immediately upon submission.
- Xtender access is rescinded each time an employee takes a new position (i.e. their position number changes).
- New users must complete the required online training before gaining access to Xtender. A member of the Xtender team will reach out to you if this training is required.
